

SENATOR BURTON SENTENCED TO PRISON

STRIPES FOR A U. S. SENATOR.

Burton Must Go to Prison for Six Months and Pay a Fine of \$2,500.

KANSAS CITY, April 6.—A special to the Star from St. Louis says: United States Senator Joseph R. Burton of Kansas, recently convicted of receiving fees illegally from the Rialto Grain and Securities Company, as their attorney, was today given a sentence of six months in jail and was fined \$2,500 by Judge Adams in the United States District Court here.

SENATOR IN COURT.

ST. LOUIS, April 6.—Senator Burton, accompanied by his leading attorney, Judge Chester H. Krum, came into the United States District Court at 12:30 o'clock. A case was being tried and Judge Adams granted a recess in that case to take up the Burton case. Judge Adams summoned Senator Burton to stand up and then spoke of the motions that had been filed for a new trial and for arrest of judgment. The court, after briefly reviewing the motions overruled them both. The court then said to the defendant:

"Have you anything to say as to why sentence should not be passed upon you?"

NOTHING TO SAY.

Trembling and evidently suppressing his emotions with a strong effort, Senator Burton stood leaning with both hands on a chair. He said:

"Your Honor will please allow me to respectfully decline to say anything." The courtroom was almost empty, with the exception of a few persons interested in the previous case, and had remained out of curiosity, and the silence was almost oppressive as Judge Adams in low, modulated tones, began delivering the sentence to be imposed.

FAIR TRIAL.

The court said: "After a fair and impartial trial by a jury of exceptional intelligence, you have been found guilty of the offenses charged in the indictment against you. A motion for a new trial in your behalf has afforded me an opportunity to carefully review and consider the evidence. As a result of this, I am satisfied that the jury reached the just and

true result. The evidence abundantly warranted their verdict and I find no reason, either in the law governing the case or the proceedings attending the trial, for disturbing it.

"Your conviction necessarily results in your punishment. Its importance, in my opinion, is not confined to its effect upon you.

LAW IS ALL RIGHT.

"Your exalted station in life and the character of your offense gives unusual significance to your conviction. It demonstrates that the law of the land is equal to any emergency and that it can be administered regardless of the personality or station of the accused. It also demonstrates to all the people that public office cannot be prostituted to self-serving purposes, and that public office is not a sure or safe passport to private thrift.

HUMILIATION.

"The humiliation attending your conviction and the statutory disqualifications resulting therefrom which forever incapacitate you from holding any office of honor, trust or profit under the Government of the United States are in themselves heavy punishment for your offenses, and leave but little in the way of severity which could be added.

"It is neither my pleasure nor purpose to impose any unnecessary punishment.

LAW VINDICATED.

"I think the majesty of the law will be sufficiently vindicated and the public welfare sufficiently safeguarded by imposing a single sentence, warranted, as it is, on any one of the six counts of indictment on which you were convicted. "This sentence will be that you be confined in the Iron County Jail for a period of six months and that you pay a fine of \$2,500."

HEAD BOWED.

At the conclusion of the sentence Senator Burton, who had not taken his eyes from the court and who had scarcely moved as he supported himself by the chair-back, turned and sat down, with his head bowed and his eyes on the floor. Attorney Krum immediately filed a bill of exceptions in the case and offered a bond for \$10,000, which was accepted, and the court took a recess until 2 o'clock to resume the previous case.

The case will now be appealed to the United States District Court of Appeals, the highest tribunal in the matter.

VICTOR METCALF FOR THE CABINET.

There is a Lively Fight in Prospect for His Seat in Congress.

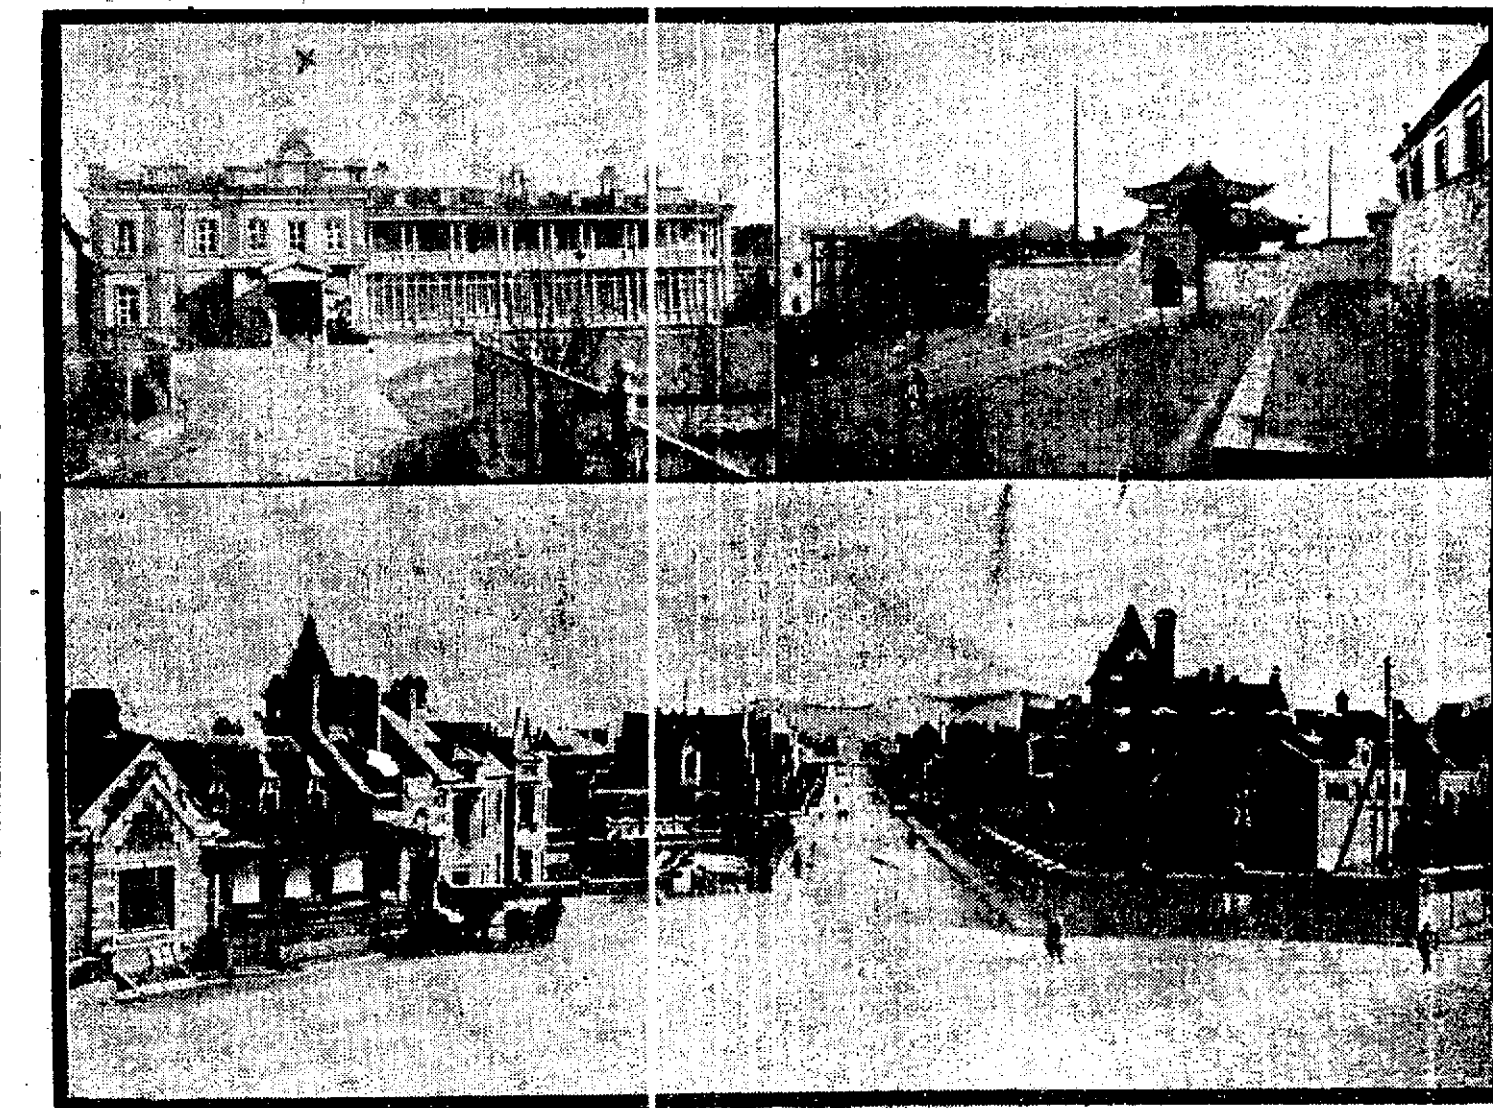

Private advices from Washington indicate that the appointment of Hon. Victor H. Metcalf to the Postoffice portfolio is regarded as extremely probable. General Payne's retirement is certain, and physical condition is such that a collapse may be expected at any time. In that event Metcalf is regarded as most likely to succeed him.

This phase of the political situation has not escaped the attention of local politicians, for they are already talking about the probable successor to Mr. Metcalf in Congress. Not less than five likely possibilities are named for the prospective vacancy—should it occur—three from Alameda county and one each from Contra Costa and Solano. The proposed Alameda county candidates are Senators Leavitt, Knowland and Lukens. With Metcalf out Senator Charles M. Belsaw of Contra Costa will be in the fight with both feet, and so will Lieutenant Governor Alden Anderson of Solano. So, if Mr. Metcalf does enter the Cabinet, the Third District will see the liveliest

free-for-all fight that it has witnessed in a generation. But if Mr. Metcalf does not enter the Cabinet, there will be nothing doing—everybody will take their hats off and give him the middle of the road.

NOT READY FOR LAND BATTLE.

Russians Prepare for the Attack of Japanese—All Quiet on the Yalu.

SHANGHAI, April 6.—It is not believed that the Russian troops between An Tung and Chi Tien Cheng, about ten miles north of An Tung, comprise the main Russian force, and, consequently, the engagement which is looked for at or near these places probably will not be decisive, but only a forerunner or larger operations. The Russians are constructing entrenchments at several points on the Yalu and Tumen rivers. These entrenchments, however, are not yet completed, and if the Japanese succeed in forcing their way past one line of defenses, it would give them distinct advantages and make it more difficult for the Russians to concentrate and oppose them. The ice on the Yalu is melting rapidly and the muddy roads make promptness in military operations most difficult.

ALL IS QUIET ON THE YALU.

ST. PETERSBURG, April 6.—"All is

quiet on the Yalu," is the report which General Kashalinsky telegraphed April 5th to General Kuropatkin, who forwarded the message to the Emperor.

The report added that an exchange of shots occurred between Russian cavalry and Japanese skirmishers near Wiju. The Russians sustained no losses. The Japanese lost five men killed. The number of wounded is not known.

The stores of a Russian village, near Yungampho, south of Wiju on the Yalu river, Korea, have been wrecked and burned by a detachment of Japanese infantry numbering 300 men.

General Kashalinsky also reported that, opposite Turmitchir, on the island of Matsuen, in the Yalu river, some Russian volunteers had a skirmish with a Japanese outpost from Wiju. There were no casualties on the Russian side. Six Japanese were killed.

LARGE FIRE ON BROADWAY NEW YORK.

NEW YORK, April 6.—For half an hour traffic on Lower Broadway, near St. Paul's Chapel, was blocked today by a fire in the new Subway. The volumes of smoke that poured through the few openings to the street driving pedestrians away and making difficult the work of the firemen, who were called out in large forces because of the location of the fire.

The fire was started by the flaring up of a small "banjo" lamp used by the laborers in the underground work. The dying, as the result of a fire that occurred today in the Columbia Hall building, a metal sheathed three-story structure located in Wilson Place. The dead are: NATHAN FREY, 66 years old, EDWARD FREY, 11 years old, HELEN FREY, 9 years old, HENRY FREY, 3 years old, GUSMAN DOBNEY, 10 years old, a cousin of Mrs. Rebecca Frey, injured. JOSEPH AGUSTUS SHOOTS HIMSELF.

Lost His Reason While Brooding Over His Mother's Serious Illness.

Fear that his mother would die, and leave him alone in the world, so worked upon the impressionable mind of Joseph S. Augustus, a haggard man at the Oakland Mole residing at 1241 Eighteenth avenue that he sought ease from the torturing thought last night by sending a bullet crashing through his brain. Two weeks ago, his mother, Mrs. Caroline Augustus was taken seriously ill. When the news was conveyed to her only son, he was deeply affected. Those who worked with him at the pier and associated with him after he had quit work noticed immediately a grave change in him. He was melancholy, moody, and always in a deep study. Attempts to arouse him from this lethargic condition were unavailing. The melancholy grew upon him until his friends and relatives began to fear that he would lose his mind.

Not later than two days ago he said to his sister, Mrs. Seaton E. Marks: "I cannot bear the strain, I am going to shoot myself."

His sister tried to rid him of the depressing thoughts and was apparently successful. The next day he visited his sister and said: "I am too big a coward to shoot myself. I cannot bear to part from mother, neither can I bear to live."

During the last three days of his life the despondent son would not partake of food. He dwelt upon the thought that he was a coward and was afraid to take his life. He confided to his neighbors that his nerve had failed him and he seemed plunged into a deeper melancholy than ever. Yesterday he bought the pistol and did not tell anyone of the purchase. He went into the basement of his house late during the night and fired the fatal shot. The bullet entered the brain near the right temple and death was instantaneous.

The neighbors heard the shot but did not make an investigation. This morning Policemen Andrews and Murray were detailed on the case and found the body in the basement lying prostrate on the floor.

Coroner Mehrmann has taken charge of the remains and will hold an inquest.

BELOVED PIONEER PASSES AWAY.

RICHARD M. BRANGAN, EARLY DAY MERCHANT AND JOURNALIST, IS DEAD.

SONORA, April 6.—Richard M. Brangan, a pioneer merchant and journalist, died in this city yesterday at the residence of Mr. and Mrs. John Shaw. He was the brother of Mrs. Shaw and the uncle of Mrs. Curtin, wife of John B. Curtin, the well known lawyer and State Senator from this district.

Mr. Brangan was one of the most widely known and best loved men in California. All his life his heart and hand were open to the call of friendship or distress. It was his delight to

assist young men and to minister to the pleasures of children. With him generosity was not a trait but a rule of life.

Mr. Brangan was a native of Belfast, Ireland, and came to California in 1852. He engaged in mercantile pursuits, but his strong literary bent drew him into journalism. He became a writer on the San Francisco Chronicle when Frank Soule, the elder, was editor of that journal. Subsequently, Mr. Brangan entered into the wholesale produce and commission business, being a member of the firm of Thomas H. Hatch & Co. He prospered in his business, and many today have abundant cause to rejoice in it, for he shared his prosperity with all who came to claim a share, whether on the score of kinship, friendship or misfortune.

For the last fifteen or sixteen years of his life Mr. Brangan devoted his attention to mining in Mexico. Since last September he has made his home with his sister, Mrs. John Shaw, of this city. His death was due mainly to a general wearing out of the system. He was aged 73 years. The funeral, which will take place tomorrow, will be largely attended because the deceased pioneer has been long and favorably known in this community.

ARGUING FOR LIFE OF WOMAN

Attorney McGowan Passionately Pleads for Mrs. Botkin.

Strong Refutation Is Given to Evidence Presented by Prosecution.

SAN FRANCISCO, April 6.—With the most impassioned oratory at his command and with the strongest logic he could devise, Attorney Frank A. McGowan opened the argument for the defense of Mrs. Cordelia Botkin this morning in a brilliantly constructed, and effectively delivered address. Remarkable earnestness and touches of pathos that brought tears to the eyes of even the hardened spectators who have drunk in the sensational testimony of the trial day to day characterized the plea seeking freedom for the woman accused of a particularly atrocious murder. The flashes of testimony that appeared from time to time during the trial, casting the burden of proof on the prosecution, were incessantly dwelt upon, and the smallest possible significance given to the strongest evidence the persecutors of the accused have adduced.

JOHN P. DUNNING SCORED.

John P. Dunning, the paramour of Mrs. Botkin, came in for one of the severest denunciations ever cast on a witness in a San Francisco courtroom. Even if the fact were admitted that the man and woman had erred, Mr. McGowan maintained, Dunning was branded as false and the evidence surmounting the truth in his companion in crime. The testimony of Mrs. Ike Tucher, from whom Mrs. Botkin is alleged to have purchased the handkerchief, was branded as false, and the evidence surrounding the finding of a candy box seal in the defendant's room declared to be manufactured.

QUESTION OF IDENTITY.

The strongest possible effort was made to show that there never had been a complete identification connecting the prisoner with purchasing the arsenic which is said to have gone in the candy or even the handkerchiefs or box of sweets.

DAY FOR THE DEFENSE.

This was essentially a day for the defense. McGowan began his argument shortly after court commenced at 10 o'clock and closed precisely at noon.

This afternoon the debate for the defense will be continued by Attorney George A. Knight, of whom a magnificent effort is expected.

Tomorrow morning District Attorney Byington will close for the prosecution and in the afternoon Judge Cook will

THE LATEST NEWS.

RED EASTER FOR THE RUSSIANS.

War Caste a Cloud Over the Rejoicing of Subjects.

ST. PETERSBURG, April 6.—(6:40 p. m.)—The Russian soldiers, the greatest religious festival in the Russian calendar, begins tomorrow. All business will be suspended and all the government departments will be closed. The next three days will be days of rejoicing for the devout (Muscovites).

Every orthodox church in the vast empire will, on Easter Sunday, in Christ's passion, crucifixion and the burial, which will be marked on the part of the faithful by a total abstinence from food followed by universal rejoicing after the midnight service on Saturday commencing the resurrection. There will then be four days of intermingling and rejoicing.

Enormous quantities of delicacies are consumed during the feasting, but the war this year casts a cloud over the rejoicing. The grocers, bakers and butchers are complaining and the charity organizations will look in vain for a golden Easter, the people already having given to the Red Cross Society, the navy and other war funds the money they ordinarily would have expended on gorgeous feasts and presents. Much of the customary brightness will also be lacking among the people. In their quiet, picturesque language, they say: "It will be a red Easter; red for the bloodshed in the Far East." There is a superstitious belief that the Japanese will make an effort to take advantage of the Russian army and navy at this solemn period as the British and their French allies did when they bombarded Odessa at Easter in 1855, but the authorities have announced no such probability. General Kuropatkin and Vice Admiral Makarov have taken special precautions to guard against a surprise.

MISS HICKMOTT IS A BRIDE.

SAN RAFAEL, April 6.—In the shadow of Mt. Tamalpais, amid a setting made gorgeous by the handwork of nature, Miss Adah George Hickmott and Charles Clark were united in matrimony today at high noon. The ceremony was performed by Dr. McKenale of the Presbyterian Ministry at the beautiful home of the bride's parents in the foothills of Ross Valley. Canvases were spread down the front driveway and upon the lawn, under a beautiful cluster of trees. Here the ceremony was performed. The bride, a pretty and vivacious blonde, came down the stairway on the arm of her father and was accompanied by her maid of honor, Miss Marian Stevenson, the bridesmaids, Miss Ella Garretson, the bridegroom's best man, Reginald Grogan. The bride looked very beautiful in a gown of white satin, hand-embroidered, with lace yoke and ermine. She carried a shower bouquet. The maid of honor carried a bouquet of white roses. After the ceremony the party and guests repaired to the dining room and sat down to a sumptuous dinner. The bride and groom were seated at a dainty wedding breakfast was served under the direction of the caterer, Mrs. Mary Thorne. There were fruit punch, cakes, sandwiches and chocolate, and the tables were decorated with maidenhair fern, roses and white flowers. GUNS ARE READY FOR THE JAPS.

Russians Near They Are Prepared to Make Attack.

ST. PETERSBURG, April 6.—7:30 p. m.—The second and fifth horse batteries of the artillery of the guards, the former armed with quick-firing guns, leaves for the front band weeks. Grand Duke Alexis, the high admiral, today reviewed his hundred naval recruits in the courtyard of the Marine Guard barracks. The recruits will proceed at once to the Far East. The city is full of rumors of proposed Japanese plans for Easter attack. The most important is to the effect that the Japanese will land at Takul Shan, about fifty miles west of the mouth of the Yalu River on Sunday night under the cover of another bombardment of Port Arthur. "If they do," remarked a Russian Admiral to the correspondent of the Associated Press, "they will find our guns ready to receive them."

COULD NOT KILL THIS BOY.

BULLETS GO THROUGH BODY BUT HE STILL HAS GOOD HEALTH.

Steve Washington, the colored stable boy who was shot at Emoryville a couple of weeks ago by a man he says was Sam Davis, has recovered sufficiently from his wounds to leave the Receiving Hospital today. Just before leaving at a final examination Steward Harry Borah, Jr. joined the second bullet in Washington's right breast, which he cut out. All further doubt as to his ultimate recovery has now been removed. Washington was shot once through the abdomen and once from the back through the lungs. The bullet that penetrated the abdomen was found and removed, but the doctors were unable to locate the bullet in the breast. His recovery is considered remarkable as that wound is such that it required the spouting out of the internal cavity.

MAKES A PLEA FOR JAPANESE.

WASHINGTON, April 6.—Secretary Hay will request Ambassador McCormick at St. Petersburg to use his good offices with the Russian Government in behalf of the two Japanese servants of the correspondent Washburn and Little, who were arrested from the steamer Fawcett at Cheung, and thrown into prison. The United States has assumed the duty of looking after and protecting the Japanese in Russia, there is ample justification for such an application. But it is said that the coming of these Japanese to New Cheung, known to be in Russian possession for a long time past, was certainly indirect and they can be saved from the consequences only through the clemency of the Russian Government.

GOVERNOR PARDEE HONORS PAPERS.

SACRAMENTO, April 6.—Governor Pardee today honored a requisition from the Governor of Utah and issued a warrant for the return of John Quinn, charged with robbery, to Edward Quinn, a member of the gang of robbers operating in Oregon, one of whom, John Greary, was captured in San Francisco and returned. Quinn is at present confined in the City Prison at San Francisco.

BUILDING ASSOCIATION IS GIVEN JUDGMENT.

The Continental Building and Loan Association was granted a judgment for the foreclosure of mortgage on the home of Edward and Annie M. Toal at Fruitvale today. They were paying for their place on the installment plan and had paid \$300 when they defaulted on further payments and today the mortgage was foreclosed. The original indebtedness was \$1200.

SENT TO PRISON.

STOCKTON, Cal., April 6.—John (Coke) Fitzgerald, a graduate of the Iona Reform School, was today sentenced by Judge Nutter to pay a fine of \$250 or serve 125 days in jail for attempting to stab a Chinaman in this county. He went to jail. Fitzgerald was charged with assault to murder, but pleaded guilty on the charge being reduced to assault.

MORMON CHURCH MAY ARREST THE BANDITS.

DELEGATES IN FAVOR OF STOPPING PROPAGATION OF POLYGAMY.

WREKLAND, O., April 6.—The city's first general conference of the Reorganized Church of Jesus Christ of Latter Day Saints began here in the old historical Mormon Temple today with nearly 800 delegates in attendance. The conference promises to be one of the most important ever held at the church, and as a result many interests are manifested in its deliberations. There is a strong sentiment among the delegates in favor of stopping the propagation of polygamy.

Much attention will be devoted by the conference to missionary work. The church now has active missionaries in many foreign countries and in all sections of the United States.

STRONGLY PROTEST AGAINST MORMONS.

WASHINGTON, April 6.—Senator Burrows presented to the Senate today protests from more than 400 of the law-abiding people of Utah against the declaration of President Joseph Smith of the Mormon church that they are broadminded enough to consent to the "black" violations of law and public decency which he confesses to have committed. The protests declare that polygamism have surrounded themselves with an impenetrable wall of secrecy in their perpetration of misdeeds and that the veil has been lifted in part for the first time in the history of the church leaders during the investigation of the Snoot case before the Senate Committee on Privileges and Elections.

The non-Mormons call for a continuance of the investigation and say that further disclosures may be expected.

HASBROUCK'S BILL LAWS FOR THE RAILROADS.

AMENDMENTS ARE OFFERED REGARDING PUBLIC RESERVATIONS.

WASHINGTON, April 6.—Senator Hasbrouck's bill relating to conservation of forest reservation on the public domain was reported favorably today. The committee adopted an amendment providing that all selections of lands made in lieu of land hereafter relinquished to the United States within any forest reservation shall be limited to land of the same character and quality, both as to soil and timber, as the land relinquished. Senator Hasbrouck offered an amendment requiring that selections be made in the State and Territory in which the land relinquished is situated and that no selection shall be made in that State except for land relinquished in the State. It was provided further that the amendment shall not affect any agreement entered into by the Secretary of the Interior in regard to the San Francisco Mountain Reservation. The section of the bill relating to railroad and grants was amended so that it provides that no forest reservation shall hereafter be created covering any land within the limits of any railroad land grant or any platted village, town or city. The Secretary of the Interior is authorized to ascertain all lands within such reservations which are chiefly valuable for agriculture and pertaining to the disposal of the same to actual settlers under the homestead laws in tracts not exceeding 320 acres in area.

BONNER RIDES MCCARTY'S MARE A SWEET RACE TO WIN.

The track was fine and the attendance on the average. There was not much betting and the day as a whole was dead. Billy Kelly was played on the quiet and had a lot of support from the unassuming tipsters. The mare ran sixth and did not about what she should have done. Oro Viva was the best thing in the race and had the best jockey. Big Bill Knapp rode a dandy race on Aunt Polly and pulled the horse along to place. Chico came near being left at the post but made a whole lot of ground. At the turn the last machine the lead that she was taken from the start but Oro Viva was too good and beat her out at the line. Aunt Polly made a good showing being favorite, but her next rival, Oro Viva, had to win. Shell Mount, thought to have a chance to be in the money, arrived at 9 to 2, was fourth and ran a bad race. Kiddy Kelly, Cathello and Young Pepper also ran. Optimo, Benish, Alice Carey, Marengo, Ethel Abbott, Lou Cleve and Clausus were scratched. The time for the six furlongs was 1:15. The start was poor and the field did not get away until 2:17.

Palmdale looked like the whole thing before the second race, and was the favorite, closing at 3 to 1. Big Bill Knapp brought home Pirella without much trouble. The start was fair and Velma and Ben Erle had a good fight for second place. Pirella had the rope behind and left the rest of the bunch behind and was easily best. Hoolikan was not up to the mark and Bonmar rode him a poor race. It was a bad lot to say the best and the prices were all low. Ben Erle was third. The following race in the order named: Hoolikan, Amarus, Edna Sullivan, Salome, Palmdale, Anita Knight, Jocular and Maybe. Howard Vance was scratched. Time for the four furlongs was 1:40.

McCarthy was played to win by many of the wise ones in the third race but Matt Hogan had it all his own way and won easily up. Modier, a sure in the money horse according to the talent, gave McCarthy a hard run and the two came home driving hard. The time for the six furlongs was 1:15. TACOMA BEATS SAN FRANCISCO—LOS ANGELES SHUTS OUT SEATTLE.

The San Francisco baseball team got its lonesome score in its game with Tacoma at Fresno yesterday. Overall, the crack pitcher of the University of California, did great work for Tacoma. Tacoma scored in the third and again in the sixth, making the final tally 2 to 1.

The game was fast and hotly contested. Overall won, a wild in the early part of the game but soon steadied down. The summary follows: Tacoma..... 2 1 3 4 5 6 7 8 9 Base hits..... 10 2 0 1 1 1 1 1 2 San Francisco..... 0 0 0 0 0 0 0 0 1 Base hits..... 2 0 1 0 0 0 0 0 4 Error—Sheehan. Two-base hit—Hansen. Sacrifice hits—Casey, Sheehan, Hannahan, Overall 2. Hildebrand, Jones. First base on errors—San Francisco 1. First base on called balls—OF Overall 2, OF Jones 3. Left on bases—Tacoma 3, San Francisco 4. Struck out—By Overall 2, by Jones 1. Double plays—Eagan to Casey to Nordyke, Anderson to Massey, Irwin to Massey. Passed ball—Hogan. Time of game, 1:20. Umpire—O'Connell.

AT LOS ANGELES. The last year's champions put up an errorless game yesterday at Los Angeles and made a grandstand exhibition of clever fielding. Hall pitched for the Angels and Hughes for Seattle. The two teams evened up hits and both got nine. Los Angeles played in championship form and shut out their opponents. The game was well attended. The summary follows: Los Angeles..... 2 0 1 0 0 0 1 1 4 Base hits..... 4 0 2 0 0 0 1 2 3 Seattle..... 0 0 0 0 0 0 0 0 0 Base hits..... 0 0 2 1 1 2 2 0 0 Striker bases—Smith 2. Errors—Van Halten, Mohler, R. Hall. Two-base hits—Bernard, Smith, R. Hall. Sacrifice hits—Chase. First base on errors—Los Angeles 5, Seattle 2. Don't get off—Hughes 3, OF Hall 1. Struck out—By Hall 3, by Hughes 4. Double plays—Blankenship to Mohler, Tomlan to Chase. Passed ball—Blankenship. Hit by pitcher—Frisk, Mohler. Time of game, 1:40. Umpire—Huston.

The Oakland baseball team made a great showing last week and they certainly demonstrated the fact that they are all that is claimed by Manager Pete Lehman. They carried off five out of the series of six games played against San Francisco, and while it is generally admitted that the team across the bay is not particularly strong this year, yet they are by no means a team of amateurs.

Their pitchers were hated by the Oakland fans and the games were not won on the mound. Winkler is recognized as an excellent pitcher and the Oakland team landed on him for thirteen hits during the morning game.

In the afternoon game the Oaklanders got a total of six hits on Yerkess, and he has all the speed and curves at his command and had the boys guessing for a spell, but they hit him just at the time they were needed and they won out by a score of 2 to 2.

Los Angeles is still leading the league with Tacoma a good second and Oakland running third. Seattle, San Francisco and Portland come in the order named. Both Portland and San Francisco look good on paper and they both have good teams and will do far better when they get down to business. Portland should play a great game with the team they have, but none of their heavy hitters are ready to show as yet made even an ordinary showing with the bat.

The Oakland and Portland will open here at Golden Gate grounds on Tuesday afternoon and then there will be a better chance to judge them. They will be in for a series of six games with the local team and there will be opportunity once more to see Judge McCredie, Nadan and Drennan, who are well known hereabouts.

The game of last Sunday morning demonstrated the fact that the people of Oakland will go to see baseball if a good team represents the town. The grounds were packed to the gates, several hundred people were standing. All the game in the league went away from home in practice and they had practically good weather while the San Francisco boys stayed at home and were made to go out on the field owing to the wet weather. The boys across the water will be heard from later and Captain Irwin need not worry.

But two hits were made by the Portlanders of Doc Newton on Sunday last at Los Angeles. McCredie made both, which were of the hunt or it.

Hildebrand has lost the lapel he used to have in past seasons. It was his custom to stand out for a while before he pitched and he was an attempt to hit. The pitchers lob him over at him now and he must go to work at once or get out.

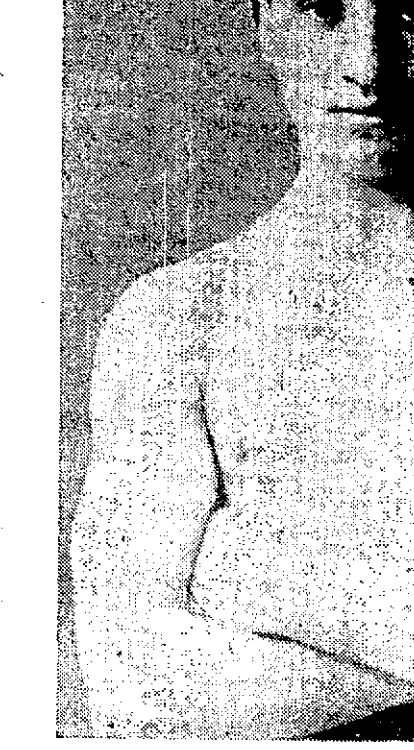

President Hawbaker is not to be seen in his "cigar" this season at the Oakland grounds. He can be found at the gate looking out for the patrons of the game, seeing that they don't have to pay for tickets and he can't have it that they all get his big red nose card. Clay has always worked hard to make the game of baseball a success and he is still at it. The score card which he has issued shows that he knows how to do his job and he is a well-known fact that the card across the bay is not to be compared with the one Clay is getting out, yet it costs 10 cents to get one.

Frank Ayers made a great hit at the morning game when he had a good taste in his Mulgrew cotton suit. Frank did certainly look stunning and he appreciates very much no doubt the fact that the card across the bay is not to be compared with the one Clay is getting out, yet it costs 10 cents to get one.

The new grounds at Idora Park will be ready shortly and then Oakland will have something to be proud of. The diamond will be of grass, the same as that used in San Francisco, and the grandstand will be much larger.

Buck Franks and Schaefer are working together at short and second as though they had been associated in these positions before. They never tangle with each other if anything slips up and are as agreeable as two cooing doves.

Bill Devereaux is not doing much yet. He is playing along in his usual way, but wait a little. When Bill gets his whip out he will be heard from. He has been

Frank Ayers made a great hit at the morning game when he had a good taste in his Mulgrew cotton suit. Frank did certainly look stunning and he appreciates very much no doubt the fact that the card across the bay is not to be compared with the one Clay is getting out, yet it costs 10 cents to get one.

The new grounds at Idora Park will be ready shortly and then Oakland will have something to be proud of. The diamond will be of grass, the same as that used in San Francisco, and the grandstand will be much larger.

The Oakland baseball team made a great showing last week and they certainly demonstrated the fact that they are all that is claimed by Manager Pete Lehman. They carried off five out of the series of six games played against San Francisco, and while it is generally admitted that the team across the bay is not particularly strong this year, yet they are by no means a team of amateurs.

Their pitchers were hated by the Oakland fans and the games were not won on the mound. Winkler is recognized as an excellent pitcher and the Oakland team landed on him for thirteen hits during the morning game.

In the afternoon game the Oaklanders got a total of six hits on Yerkess, and he has all the speed and curves at his command and had the boys guessing for a spell, but they hit him just at the time they were needed and they won out by a score of 2 to 2.

Los Angeles is still leading the league with Tacoma a good second and Oakland running third. Seattle, San Francisco and Portland come in the order named. Both Portland and San Francisco look good on paper and they both have good teams and will do far better when they get down to business. Portland should play a great game with the team they have, but none of their heavy hitters are ready to show as yet made even an ordinary showing with the bat.

The Oakland and Portland will open here at Golden Gate grounds on Tuesday afternoon and then there will be a better chance to judge them. They will be in for a series of six games with the local team and there will be opportunity once more to see Judge McCredie, Nadan and Drennan, who are well known hereabouts.

The game of last Sunday morning demonstrated the fact that the people of Oakland will go to see baseball if a good team represents the town. The grounds were packed to the gates, several hundred people were standing. All the game in the league went away from home in practice and they had practically good weather while the San Francisco boys stayed at home and were made to go out on the field owing to the wet weather. The boys across the water will be heard from later and Captain Irwin need not worry.

But two hits were made by the Portlanders of Doc Newton on Sunday last at Los Angeles. McCredie made both, which were of the hunt or it.

Hildebrand has lost the lapel he used to have in past seasons. It was his custom to stand out for a while before he pitched and he was an attempt to hit. The pitchers lob him over at him now and he must go to work at once or get out.

President Hawbaker is not to be seen in his "cigar" this season at the Oakland grounds. He can be found at the gate looking out for the patrons of the game, seeing that they don't have to pay for tickets and he can't have it that they all get his big red nose card. Clay has always worked hard to make the game of baseball a success and he is still at it. The score card which he has issued shows that he knows how to do his job and he is a well-known fact that the card across the bay is not to be compared with the one Clay is getting out, yet it costs 10 cents to get one.

OAKLAND JUST AS USUAL.

WOKE UP IN THE NINTH AND DISAPPOINTED PORTLAND.

It certainly looked as if Portland was going to do the trick and down Oakland on the diamond at Golden Gate yesterday. The usual crowd of rooters roared, and the batters milled and the hand was missing. However, there was music gallop furnished from the stand and blundered.

Both teams started in presenting round holes to each other in the first. Portland made a first in the second and the howlers howled while Oakland landed a cork. There was nothing doing until the sixth, when Oakland brought in a run and tied the score and every one woke up. Then Portland got busy in the seventh and tallied two big ones that to reach looked way at the top of the ladder. The dirt was an empty frame and Portland backfired cheered the crowd and full of harmony. Portland much preferred to get into working order in the ninth and were there when the bucket was empty when they went in the bat and the old war horse of the Oaklands had that winning face all set. And it came to pass that in the early part of the ninth the Oakland backfired much and they were backed on their armor and they began to beat scores. And they came in one, two, three and the Oakland champions did win thereby. The score:

COUNCIL DISCUSSES THE WATER RATES.

Engineer Adams Explains the Meter System and the Sources of Supply.

The question of fixing water rates was exhaustively discussed at the meeting of the Committee of the Whole of the Council last night. Councilman John L. Howard presided over the deliberations, which consisted principally of questions by President Dornin of the Council and answers by Engineer Arthur L. Adams representing the Water Company.

There were no exciting scenes as in former years. The answers and questions proceeded in an even way. After swearing Engineer Adams, Mr. Dornin questioned the Water Company's representative as follows:

Dornin—You have come prepared, have you not with the information asked by the Council?

Adams—Yes, to a certain extent. There are of course many questions which I must answer on information and belief.

Dornin—Have you a report with you?

Adams—Yes, I have a list of the rate producing fixtures. It was not placed into my hands until today at noon. I have everything complete except a few things which I could get only from the secretary of the company who has been ill for a few days.

Dornin—I am very anxious to see the city on a meter basis. I would like further information on the subject. When you prepared the statement relative to meters for Mr. Dingee did you have in mind the fact that the city might change onto the meter basis?

Adams—I have never reduced that to figures. Dornin—Have you figured how much per 1000 gallons the city has paid for water department and the flushing of sewers?

Adams—I have never reduced that to figures. Dornin—Then you have no means of knowing what is saved by the check meter system?

Adams—I have never had occasion to ascertain that. Dornin—Will you demonstrate on the blackboard the workings of the check meter system?

Adams—(At the blackboard) Take the monthly flat rate as \$5.15. The meter measure then is \$7.72 worth of water or one and one-half times more than the flat rate. In gallons the meter amount allowed would be 17,812 gallons.

Dornin—What is the average rate a man would have to pay under that schedule. Adams—It is about .029 cents per 1000 gallons.

Dornin—How do you determine the amount of water which belongs to the Oakland system? Adams—We segregate the amount of water going to Berkeley and Alameda by volumetric measurements.

Dornin—What were the gross revenues of the Oakland division in 1903? Adams—I wish to say for the convenience of the Council that there was a summarized statement of the revenues of the Water Company. I do not remember the exact amount.

Councilman Howard—Mr. Adams' answer the question of Mr. Dornin. We will give you the privilege of verifying the answer by the records of the company.

Adams—Well, put down \$697,488.96 for water rents. From the San Leandro division we received \$15,345.91. For tapping mains there was received \$9,884. Dornin—Was that last item included in 1903?

Adams—I do not know. Dornin—I merely wish to get the rate for 1900 gallons.

Adams—We received from land rents \$1625 during the year 1903.

Dornin—Was that last item included in 1903? Adams—I do not know. Dornin—I merely wish to get the rate for 1000 gallons.

Adams—We received from land rents \$1625 during the year 1903.

Adams—We received from land rents \$1625 during the year 1903.

Dornin—That is a small item. Adams—All of your questions have thus far related to Oakland.

Dornin—I wish to find now what the daily supply for Oakland was during the same year? Adams—It was 10,886,000 gallons daily.

Dornin—How much for 1000 gallons would that make it? Adams—About 16 cents, according to meter rates.

CITY'S METERS. Dornin—How much of the city is metered? Adams—About 25 per cent.

Dornin—How does the company notify anyone that they are wasting water? Adams—When he has exceeded 50 per cent of the meter rate. This is governed by ordinance which provides that after notification the company may collect for excessive waste at meter rates. This is about how the law works. The meter is read once a month. If the waste ceases the first month after notification, no charge is made. If the waste is continued, it is charged for at meter rates.

Dornin—Has the company found it in practice that it has to notify patrons very often? Adams—Yes, very often.

Dornin—What was the average rate paid by the city for 1000 gallons for further information on the subject. When you prepared the statement relative to meters for Mr. Dingee did you have in mind the fact that the city might change onto the meter basis?

Adams—I have never reduced that to figures. Dornin—Have you figured how much per 1000 gallons the city has paid for water department and the flushing of sewers?

The water plant of Oakland is very much more extensive in proportion to the population than that of the other towns. Dornin—Why should these towns supplied from the same pipes, be charged different prices?

Adams—I can answer that. There is a certain amount of revenue to be raised. It does not make any difference whether the water works are owned by a private corporation or the city. Take for instance the large consumer like the Southern Pacific. The railroad cannot pay more than \$25,000 or \$15,000. I you raise the rate the company will get water elsewhere. You cannot charge a consumer more than the consumer can pay. If the water company is not permitted to charge the railroad company \$25,000, then this \$25,000 must be made up in some other way for the water company is entitled to a certain revenue. It is proper that the city should pay a large rate for it comes from general taxation. The revenue of the water company could be made up from other sources, but it would not be policy. If the city wishes to have the price it pays for water reduced, the water company can easily make up the amount gained by the city by taxing other properties more.

LOSS OF WATER. Dornin—How do you account for the loss of water in pumping water? Adams—The meter does not always register fully. As they become old there is always a deficiency. The meters will not account for more than 75 per cent.

DORNIN HAS LETTER. Dornin—I have a letter from a friend of mine in Pasadena who is in charge of the water works. He states that he has meters which will account for 98 per cent of the water.

Adams—The same thing would prevail here if we measured the same way. They take the volume as it flows into the pipes as we do. There is always a discrepancy which must be taken care of in rate fixing purposes. This discrepancy is 25 per cent.

Dornin—What would the rate be here if the consumption were reduced to 90 gallons per day? Adams—I think you have some figures there in the statement I made. I think it would take about 0.31-0.33 cents per gallon to produce a revenue of \$500,000 on the basis of the plant as it existed that year.

Dornin—If you got one and a half times the rate of 15 cents would it not be proper if the consumption was reduced from the present rate of 188 gallons to 90 gallons?

Adams—That would not yield the requisite revenue for the 16 cents we figure from included revenue from all other sources. To make the \$500,000 revenue we would have to charge a higher meter rate. I have not the figures here with me.

LOSS FROM LAKE. Dornin—Do you think, Mr. Adams, there is a loss of one-third of the water between Oakland and Lake Chabot? Adams—No, I would say all that Dornin—This loss occasions much surprise among engineers when it was discussed.

Dornin—Could not this be reduced some? Adams—Yes.

Dornin—Then with the improvements in pipes would not the San Leandro lake be sufficient for Oakland? Adams—I might be.

Dornin—Why should Oakland be called on to pay interest on all of the other plants if the San Leandro plant is sufficient to supply this city with its 90 gallons per day? Would it not be better if the Alameda plant and the others were destroyed?

UNSETTLED QUESTION. Adams—That is a question which is now before the Supreme Court. Dornin—Is Alameda and Berkeley paying their proper pro rata?

Adams—Alameda is paying more. I am not certain as to Berkeley, but it is paying less than Alameda. Dornin—You think then that the San Leandro lake would be able to supply Oakland?

Adams—That is a matter of opinion. I would say that the nature of the water would be if the entire city was metered. I could not say within 25 or 30 per cent.

DORNIN FINISHES. Dornin—I am through for tonight. Howard—I would like to ask a question or two. As I understand it all of the water entering the city of Oakland is primarily charged to this division. The computations are then made for Berkeley and Alameda by deducting the water taken by those two cities.

Howard—Is it not a fact that under the Hart decision the city of Oakland is paying interest on the plant which supplies water to Berkeley and Alameda? Adams—No; we are not working under the Hart decision; not within \$150,000 of the revenue. All the money received from Berkeley and Alameda is credited to the Oakland division.

Howard—What constitutes the Oakland division? Adams—The corporate limits of the city of Oakland, Emeryville, San Leandro, Elmhurst and all intervening towns. Howard—What is the cheapest, the flat rate or the meter rate?

Adams—In the long run I think the meter rate.

Howard—As we have exceeded the time limit I think we had better adjourn. I have more questions which I will ask at the next meeting of the Committee of the Whole.

The committee then adjourned to meet Friday, April 15.

HORSEMEN ARE PAYING TAXES. The little flurry caused by the objection of James Nealon to pay the taxes assessed on his horses at the Emeryville race track has subsided and it is stated that the horsemen in general have promised to be good. Nealon also said that he would pay up and also that he expected that any seizure will have to be made in order to get what money is due.

The question was raised by Nealon as to whether horses at the race track ought to be assessed in Alameda County or in the county where the owner resided. It was believed to be an attempt on the part of the horsemen to evade the paying of any tax upon their thoroughbreds for if this rule prevailed by the time a great many of the horses reached their home stables the time for assessment would have gone by. The matter was referred to the District Attorney's office and Deputy W. H. L. Hynes looked up the law in the matter and found sufficient decisions to warrant the opinion that horses at the race track are to be taxed transit and should be assessed if they were there on the first Monday in March.

CAPTAIN HAS A NARROW ESCAPE. A McLean, a master mariner, was struck by the Webster street local train about 11 o'clock last night near Hay and Wright's shipyard and had a remarkable escape. He attempted to cross the track in front of the engine which struck him a glancing blow and thrust him away from the track and landed him in the ditch.

He received a severe bruise on the arm and went to the Receiving Hospital where his injury was ascertained. How he got off with so little harm considering the distance he was thrown is something he was unable to explain except on the theory of luck.

OSGOOD'S PLAIN TALK

Recently a prominent drug store in San Francisco used a full page of a paper to tell the public how they were cutting the prices of goods.

And there was not a single article mentioned at a lower price than our goods are marked.

It has always been so with us. We have always cut prices and always will. No organization can say to us that we shall not cut below a certain figure. We cut just as low as we please and no firm cuts deeper than we do.

In our new store soon to be opened at Twelfth and Washington, the same principle will be followed as at our old store.

A FIELD FLOWER.

BEAUTIFUL AS THE ROSE.

"She looks as clear as morning roses newly washed with dew."—SHAKESPEARE.

FRESH young face like the lilies of the field attracts a man. But what looks a man is charming, and a woman may be very lovely yet possess no charms. There is no reason why a woman in good health should not retain her looks until she is quite old. Girls grow up like flowers in the field, and if weeds do not smother their good looks—which we mean disease of the feminine organs—they should grow up beautiful. There is no reason in the world why the majority of our women should grow old looking and haggard as young as they do. The influence of flowers is good. A woman who loves flowers is usually one who enjoys tranquility and cheerfulness, has usually charming feminine ways. Men do not like a mannish woman. The sight of flowers often tranquilizes a woman's nerves and the perfume soothes the temper. In America wrinkles are the greatest drawbacks to beauty that we have to fight. It seems as if we even see wrinkles in the faces of our very young girls. Life in the open air assists people to keep young. By living in stagnant air in a close room night or day the beauty of the complexion is spoiled. "Many people imagine night air is dangerous," says Dr. Pierce, the great specialist in women's diseases. "They exclude it from the sleeping rooms as far as possible by keeping doors and windows closed. This is a mistake. Young women are apt to hover about the register or stove, spending too much time in the warm indoors, with the result that they become tender and sensitive and are almost certain to catch cold. The young girl is like a plant which, set in a dark corner, becomes scrawny and struggles hard for an existence, but if put in the sunlight puts on more vigorous growth. Thousands of girls in America lose health and strength and grow thin and sickly because they do not take proper hygienic measure or take proper care of their womanly health. When there is disturbance of the female organs the effects are wide spread and disastrous."

About thirty-eight years ago, Dr. P. V. Pierce, then a practicing physician, found that a certain compound made from roots and herbs, without the use of

alcohol or narcotic, was a specific for those diseases peculiar to women. There is nothing that will produce wrinkles and a bad complexion so surely as displacements of the organs essentially feminine. When pains and aches rack the woman's system at frequent intervals, take Dr. Pierce's Favorite Prescription. It will cure those ailments and stop the drains which are such a drag on the vitality of womanhood. If you are at a loss to know what is the matter with you, write Dr. Pierce, who will answer you in strict confidence. He is a physician and surgeon who has had a thorough medical training and a large experience in diseases of women, and will give you advice free of cost to you.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of the Uterus, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Miss Mary Rohrbach, No. 73 Amsterdam Ave., New York City, Treasurer of the Woman's Progressive Union, writes: "I am satisfied that half the doctors do not know what really ails their patients, while you have carefully studied the needs of the sick and worn-out, and have skillfully prepared a reliable remedy which will cure in a short time. Two years ago I began to feel 'run-down,' the extreme heat of the summer nearly prostrated me, and when fall came I was ill prepared to take up anew the burdens of life. I had headache, backache, and was very nervous; scarcely able to sleep more than two hours at a time. I was advised to try Dr. Pierce's Favorite Prescription, and was delighted with the result. Within a week I was sleeping splendidly. Continued using the 'Favorite Prescription' for eight weeks, and then stopped, for I was perfectly well. Ever since then your medicine has been my 'Favorite Prescription,' too. I recommend it to every one."

Every woman, young or old, should know herself. To arrive at this knowledge, secure a good doctor book, by addressing Dr. R. V. Pierce, Buffalo, N. Y. "The People's Common Sense Medical Adviser" can be procured by sending twenty-cent stamps for paper copy, or thirty-cent stamps for a cloth-bound copy.

CIGARMAKERS. A 25 cent assessment was levied for the butchers. The assessment is indefinite, lasting as long as financial help is needed by the strikers.

Twenty tickets were taken for the cigarmakers' ball, in San Francisco, April 15th.

One new member was initiated.

SPECIAL MEETING. A special meeting of local union, No. 127, B. of P. D. of A. was held last night in Kohler & Chase Hall. The meeting was addressed by Third Vice-President J. C. Skemp and General Secretary-Treasurer M. P. Carlick of the International Brotherhood.

Third Vice-President Skemp reviewed the entire situation in San Francisco in regard to the trouble that existed in Painters' Union, No. 19. The differences have been adjusted and the decision rendered by him will be strictly adhered to.

General Secretary-Treasurer M. P. Carlick was introduced amid a shower of applause. He spoke briefly regarding the brotherhood in general and the field of action now occupied by organized labor.

A social session followed the address. There were 230 members of the local union present.

MACHINISTS MEET. An assessment of 10 cents a week was levied by the union for the Western Federation of Miners. The assessment will continue until further notice is given.

The regular annual ball was set for Wednesday evening, May 15th. The committee on arrangements is G. H. Blake, J. Hill and G. Craig.

Industrial Lodges, No. 610, T. A. of A. will give its first grand annual ball April 20th, in Reed Hall, corner of Thirteenth and Harrison streets.

The committee of arrangements is comprised of A. M. Duff, chairman; H. P. Campbell, G. H. Goodwin, J. J. Dignan and H. W. Connor. A. M. Duff will act as floor manager.

To clean ostrich feathers at home is very simple, says a well dressed woman, who takes care of her own. "I make a suds of lukewarm water, dip the feather and draw it through my hand. Continue this until the feather is clean, never letting it stay long enough to soak. After it has been thoroughly rinsed through clear cold water, place it on something round and slope with the hands to bring out the fluffiness. This last is the only difficult part and requires practice to bring out the desired fluffiness."

SHOEMAKERS. A regular meeting of the Boot and Shoemakers' Union was held in Cooke and Waters' Union headquarters on Tuesday evening. President Charles Petry presided. The eight-hour work day was under discussion. It was

MISS ALICE DANIELS IS THE
BRIDE OF THOMAS P.
ASHCOM.

The home of Mr. and Mrs. G. R. Daniels on Howe street was the scene of a pretty wedding last night when Miss Alice Daniels became the bride of Thomas P. Ashcom.

The ceremony was performed by Rev. Miss B. Fisher, pastor of Oak Chapel. The bride was attended by Miss Frankie Daniels and Karl Auerbach acted as best man.

The bride wore a beautiful gown of white silk mull over taffeta elaborated with a lace yoke and she carried a shower bouquet of white roses.

The maid of honor, Miss Frankie Daniels wore a blue silk mull gown and carried carnations.

The house was beautifully decorated with Easter lilies and early spring blossoms with a profusion of smilax and greens.

Only a few friends and relatives were invited to witness the ceremony and after an informal reception Mr. and Mrs. Ashcom departed on a brief honeymoon. On their return they will make their home on Howe street for a short time before moving into their own home.

MISS KLEEMAN'S AFFAIR.

Miss Estelle Kleeman was hostess yesterday afternoon in honor of Miss Lita Gallatin who is to leave shortly for Europe.

The house was exquisitely decorated in white and green. Bunches of tall Easter lilies nodded against a background of ferns and other greens and white violets were used with good effect.

The score cards were dainty Easter eggs in green and white.

Among those who participated in the pleasant affair were:

Miss Lita Gallatin, Mrs. Washington Marion of San Francisco, Mrs. Rowley, Mrs. James McGauley, Mrs. Frederick Morse, Mrs. Frederick Stolp, Mrs. Oscar Luning, Mrs. John F. Connors, Mrs. Harry Melvin, Mrs. Charles Egbert, Mrs. Joseph Mathews, Mrs. George Humphrey, Mrs. Standford, Miss Jean Fowler, Mrs. E. C. The membership committee includes Mrs. Edward Booth, Mrs. George H. Collins, Mrs. T. G. Harrison, Mrs. W. G. Palmanteer, Mrs. George Rodolph.

LARGE SOCIAL EVENT.

Mrs. George H. Wheaton was hostess at the social event of the week, a musical tea given at the beautiful quarters of the Home Club today.

The artistic clubrooms formed a splendid background for the scores of beautiful gowns worn by Mrs. Wheaton's guests. The musical program was one of the best ever presented on this side of the bay. Miss Karoline Little, who has sung with great success in Dresden and Berlin, contributed several vocal solos to the program this afternoon and the whole affair was an artistic and social success.

The charming hostess was assisted in receiving her guests by: Mrs. Edson Adams, Mrs. George Sterrett, Mrs. William Lynham Shieles, Mrs. Milton Bullock, Miss Nellie Chabot, Miss Marjorie Smith, Miss Edna Brown, Miss Marietta Havens, Miss Alice and Miss Ruth Knowles, Miss Bessie Palmer, Miss Ethel Cotton, Miss Bessie Coogan, Miss Florence Hush, Miss May Coogan, Miss Elizabeth McNear and Miss Christie Taft.

PLAYED FIVE HUNDRED.

Mr. and Mrs. Frederick B. Dallam entertained a number of friends at an informal game of five hundred recently. After a fascinating game the prizes were carried off by Mrs. Charles Lovell and Fred Dallam.

NEWS FROM BERKELEY AND THE STATE UNIVERSITY

UNIVERSITY INSTRUCTOR IS WAYLAIED.

William J. Sharwood Walks a Block and Then Falls From Effects of Footpad's Blow.

BERKELEY, April 6.—Unusually bold was the manner in which William J. Sharwood, an instructor in chemistry at the University of California, was waylaid and beaten at the corner of Bancroft way and Fulton street last night by two young men who did not even take the precaution to mark their faces. The victim of the attack raised a cry that the highwaymen left him without ransacking his pockets. Sharwood started to walk to his home at 2118 Durant avenue but he had no sooner walked a block to the corner of Durant avenue and Fulton streets than he fell unconscious from a blow which had been delivered on the back of his head.

The hold-up took place at about 11:30 as Sharwood was returning from the postoffice. While walking from his residence to the office Sharwood noticed a well dressed young man standing at the corner of Fulton street and Bancroft way, which is one of the most closely settled residence districts in the city. He paid no attention to the man, not even when he noticed them still standing there on his return trip from the postoffice.

HIGHWAYMEN SEPARATE. "The fellows separated as if to allow me to pass," said Sharwood, "and I noticed that one of the men was ahead of the other. The one farthest from me must have worn rubber-soled shoes for as I passed he stepped up behind me and delivered the blow which stunned me. Then the other fellow rushed up and raised his hand toward me. Whether he held a revolver or not I could not ascertain but in answer to my cries for help he demanded that I keep still."

Staggering in the direction of his home, the victim of the hold-up finally fell at Fulton street and Durant avenue. There he was found by a number of members of the local chapter of the Eastern Star who returned from a meeting. Among them in the party were Mrs. W. H. Wastie, Mrs. Frank Solinsky, Dr. James Wonda and M. P. W. Albee.

TREATED BY SURGEON. The injured man was carried to his home where Dr. Stella Lehr, who was called by the neighbors, found him. He was taken to the hospital where he is now recovering from his injuries.

DR. LYMAN ABBOTT TO SPEAK AT STANFORD. Rev. Dr. Lyman Abbott, the famous New York preacher, who has been delivering a series of lectures at the University, will deliver an address before the students of Stanford at a general assembly this morning at 11:15 a. m. The subject of his address has not been announced.

Among the latest things for table use are the small salt cellars, either of red glass or silver, with a tiny salt spoon, which are sold for a quarter.

HAYWARDS, SAN LEANDRO, EMERYVILLE, FRUITVALE, GOLDEN GATE

MORE ELECTRIC TRUSTEES HOLD HOOD ANNUAL WILL DECIDE ON MONDAY.

THREE NEW FEED WIRES FOR SAN LEANDRO CITY FATHERS TRANSCAT ROUTINE BUSINESS. THREE FIRE COMMISSIONERS ELECTED IN FRUITVALE. CARNegie LIBRARY WILL BE PLACED ON ONE OF THREE SITES. HAYWARDS, April 6.—Just where to locate the Carnegie library still remains a problem in Haywards. There are three sites to choose between. Many people are in favor of the Cooper corner on B street. F. H. Sebas, the owner of the property, asks \$5000 for the house and lot. The town of Haywards is not able to purchase the property. These in favor of this site suggest using 30 feet of the lot on both streets for the library building and using 70 feet on B street and 70 feet on First street to be sold for residence sites. It is contended that these two lots would bring, if offered for sale, an amount of \$10000. This would reduce the cost of the library to \$2000. This amount would have to be raised by public subscription.

FRUITVALE, April 6.—Monday afternoon the regular election of fire commissioners of the Fruitvale Volunteer Fire Department, No. 1, was held. The officers elected were Dr. J. B. Smith, E. Bassett and C. Lee. The newly elected officers will take office April 14.

THE FRATERNAL BROTHERHOOD gave a delightful masquerade ball in Blackman's hall, on East Fourteenth street, Tuesday evening. The hall was the best dressed and the most beautiful decorated with cut flowers and potted plants. Light refreshments were served during the evening.

THE COMMITTEE OF ARRANGEMENTS consisted of Mr. and Mrs. E. L. Blackman, Mrs. F. C. Nelson and Charles Anderson. Mr. Anderson acted as floor manager.

BILLIARD PARLOR. E. M. Jacobson and his brother, Fenton, are building a two-story frame structure on Fruitvale avenue near East Fourteenth street. They will move their billiard and pool tables on East Fourteenth street into the new building.

SAYS THE WORLD IS NEAR THE END. CHICAGO, April 6.—The end of the world in ninety years has been predicted by Dr. John Robertson at the Evangelical services at the First Presbyterian Church in Austin.

"The day of judgment is at hand," he said. "Roughly speaking about 2000 years have elapsed between each coming of the Lord. After he created man it was 2000 years until he appeared again and 2000 more until the coming of Christ. Reasoning by inductive analogy, the end of the world and the coming of the Lord are not far distant. He is about due for the fourth time, and this time He will come as a judge."

MAY SETTLE STRIKE. NEW YORK, April 6.—A protracted conference of the general arbitration board of the Building Trades, representing the employers and the associations of skilled workers, has resulted in the settlement of a long-standing dispute in the building trades here.

Representatives of the bricklayers, who are the principal trouble, concurred in the resolutions recommending that the strikers return to work without delay. The settlement of the entire matter by arbitration, agreement of a similar character previously entered into by representatives of the bricklayers, has been regarded by the unions, and it is now believed they will take favorable action. More than 10,000 men are idle.

NO TROUBLE AT PRESENT. NEW YORK, April 6.—For the first time in several months there is no labor trouble in the Rapid Transit subway, a strike of plumbers having been settled after a month's negotiations. The men will resume work at once on the stations.

PLAQUE DYING OUT. NEW YORK, April 6.—Only two new cases of bubonic plague developed Monday, says a Herald dispatch from Lima, Peru. The government has ordered a strict examination of all passengers and disinfection of baggage on all trains leaving Callao and also on steamers leaving Callao. Sanitary stations have been established in Payta, Callao and Ito.

DECREASE IN EXPORTS. BERLIN, April 6.—Exports for the quarter to the United States from the Consulates under the jurisdiction of the general consulate at Frankfurt amounted to \$2,892,000, a decrease from the preceding quarter of \$2,934,332.

THE REAL TEST. Of Herpicle is in Giving it a Thorough Trial. There is only one test by which to judge of the efficiency of an article and that is by its ability to do that which it is intended to do. Many hair restorers are advertised, but the point is—do they eradicate Dandruff and stop falling hair? No, they do not, but Herpicle does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Herpicle stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicle Company, Detroit, Mich. Bowman & Co., special agents.

OF HERPICLE IS IN GIVING IT A THOROUGH TRIAL.

There is only one test by which to judge of the efficiency of an article and that is by its ability to do that which it is intended to do. Many hair restorers are advertised, but the point is—do they eradicate Dandruff and stop falling hair? No, they do not, but Herpicle does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Herpicle stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicle Company, Detroit, Mich. Bowman & Co., special agents.
